mod. T.EP.AR

Telai per nastri trasportatori e tessuti multistrato, filtri
Weaving machines for weaving transport belts, multi-layer fabrics, filters and corrugator

Dati tecnici:

Diametro del filo: 20/6, 26/4, 10/12, 10/26

Materiale del filo: sintetico, kevlar, carbonio e fibre naturali

Tensione max: in battuta 6000 daN/m

Velocità max: 140 rpm

Costruzione in altezza di tessitura: da 1000 mm. a 2000 mm.

Inserimento filo di trama: tramite asta rigida

Technical features:

Wire diameter: 20/6, 26/4, 10/12, 10/26

Type of the yarn: synthetic, kevlar, carbon and natural fibers

Max beat-up tension: 6000 daN/m

Max beat-up speed: 140 rpm

Weaving width: from 1000 mm. up to 2000 mm.

Weft insertion: by rigid rod
